Instructions

The LCAP Federal Addendum is meant to supplement the LCAP to ensure that eligible LEAs have the opportunity to meet the Local Educational Agency (LEA) Plan provisions of the ESSA.

The LCAP Federal Addendum Template must be completed and submitted to the California Department of Education (CDE) to apply for ESSA funding. LEAs are encouraged to review the LCAP Federal Addendum annually with their LCAP, as ESSA funding should be considered in yearly strategic planning.

The LEA must address the Strategy and Alignment prompts provided on the following page.

Each provision for each program must be addressed unless the provision is not applicable to the LEA.

In addressing these provisions, LEAs must provide a narrative that addresses the provision **within the LCAP Federal Addendum Template.**

Under State Priority Alignment, state priority numbers are provided to demonstrate where an ESSA provision aligns with state priorities. This is meant to assist LEAs in determining where ESSA provisions may already be addressed in the LEA's LCAP, as it demonstrates the LEA's efforts to support the state priorities.

The CDE emphasizes that **the LCAP Federal Addendum should not drive LCAP development.** ESSA funds are supplemental to state funds, just as the LCAP Federal Addendum supplements your LCAP. **LEAs are encouraged to integrate their ESSA funds into their LCAP development as much as possible to promote strategic planning of all resources;** however, this is not a requirement. In reviewing the LCAP Federal Addendum, staff will evaluate the LEA's responses to the ESSA plan provisions. There is no standard length for the responses. LEAs will be asked to clarify insufficient responses during the review process.

This template is designed to be used by LEAs who already have completed their LCAP Federal Addendum and received approval from CDE. This template will support LEAs with the review of their LCAP Federal Addendum and revision.

The review and revision of the LCAP Federal Addendum do not need to be submitted to CDE for approval. However, an LEA should have their local Board approve any revisions.

Even if the LEA plans to transfer all of its title funds, it must still address all of the provisions of the title from which it is transferring its funds. The LEA must first meet the application requirements of those funds before it can elect to transfer those funds to another title.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. This LCAP Federal Addendum provides LEAs with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for LEAs to innovate with their federally-funded programs and align them with the priority goals they are realizing under the state's Local Control Funding Formula (LCFF).

LCFF provides LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The LCAP planning process supports continuous cycles of action, reflection, and improvement.

Please respond to the prompts below, and in the pages that follow, to describe the LEA's plan for making the best use of federal ESEA resources in alignment with other federal, state, and local programs as described in the LEA's LCAP.

Strategy

Explain the LEA's strategy for using federal funds to supplement and enhance local priorities or initiatives funded with state funds, as reflected in the LEA's LCAP. This shall include describing the rationale/evidence for the selected use(s) of federal funds within the context of the LEA's broader strategy reflected in the LCAP.

Mueller Charter School's LCAP identifies four goals; pupil outcomes, conditions of learning, student engagement, and educational partners engagement. The major themes in this year's LCAP are outlined below:

- Adaptation and response to student and community needs will continue to drive our approach to attaining equitable outcomes for all students. We seek to continue to see academic growth and progress for all students.
- Access and expansion of services to comprehensive TK-12 systems of services including social emotional, psychological, physical health and well-being.
- A continued focus on the development of 21st century skills, technology skills and VAPA with a continued focus on preparing students for college / career and beyond.
- Advocating for the mission of the charter from an equity lens, which promotes student, parent, and community voice.

Each goal has actions and services that align with our Resiliency Monitoring System, supporting our core and supplemental programs taking into account the lasting impacts of the COVID 19 pandemic. Mueller Charter School's strategy for using federal funds along with LCFF monies is to increase student outcomes for our critical groups including our socioeconomically disadvantaged students and Multilingual Learners (English Learners). Mueller has focused federal Title monies in conjunction with state funding on literacy, technology and strategies for supporting our Multilingual Learners (English Learners) as both preventative and intervention measures.

Data indicates the continued achievement gap between students who are socioeconomically disadvantaged and their peers begins prior to entering school. In addition, we also see this trend with our Multilingual Learners (English Learners) in comparison to our English Only students. We recognize the lasting impact the pandemic has had on our student's academic gains and seek to both restore the instructional growth we saw prior to COVID. This year we continue to use local measures and data to determine student needs and areas of growth. Our local measures data allowed us to track the progress of students and connect them to supports and interventions.

Mueller continues to use federal funds to provide additional funding towards supporting our socioeconomically disadvantaged students across elementary, middle and high school. Funds are allocated strategically to support our students with the greatest need. In addition, Mueller has continued our emphasis on providing a strong student support system through our comprehensive counseling programs. Aside from providing social emotional supports, counselors promote college readiness, career pathways, access to support for the college application process, workshops, and transitions supports from middle to high school.

Our Multilingual Learners (English Learners) continue to be a critical area of focus as we serve a high percentage of Multilingual learners (English Learners). We understand the distinct needs and necessary supports that must be provided to assure our Multilingual learners (English Learners) demonstrate academic growth. The programs in place for Multilingual Learners (English Learners) have been successful in the past in closing the performance gap. However, we have seen a continued need to assure that our Multilingual Learners (English Learners) are performing equivalent to their English only peers. Our strategies seek to restore the growth that was made prior to the pandemic while closing the gap exhibited this past school year. Mueller plans to build upon the current plan of having strong supports and interventions for socioeconomically disadvantaged students and newcomers, along with targeted supports to prevent long term English Learners (LTEL) at the middle and high school levels.

Alignment

Describe the efforts that the LEA will take to align use of federal funds with activities funded by state and local funds and, as applicable, across different federal grant programs.

LCAP actions are developed in conjunction with input from various educational partner groups. These groups review data and support in creating actions and services that will benefit student outcomes but also including a specific focus on socioeconomically disadvantaged students and Multilingual Learners (English Learners). Data analysis gathered and needs assessment results drive the conversations and ultimately, the actions and services put in place to support students. This year added another layer of dimension with the prolonged impacts of the pandemic. Educational partner groups recognized a need to target approaches and interventions based on the distinct challenges and needs from the academic year. Mueller Charter School is committed to continuing to supplement our existing programs. We are committed to continuing an extended school year, after school intervention, and small group supplemental instructional supports. We continue to fund intervention positions to support our highest need students in additional small group instruction.

Federal Title funding is utilized for school counselors, technology personnel, professional learning, beginning teacher support, software subscriptions, and health and wellness support for homeless youth.

Mueller uses federal Title funds to provide after school intensive academic interventions for Multilingual Learners (English learners) and students who are socioeconomically disadvantaged. Additional instructional minutes are provided to Multilingual Learners (English learners) and students who are socioeconomically disadvantaged at the elementary, middle and high school levels. Increased services for Multilingual Learners (English learners) include specific software to support second language development. Middle and high school grades receive ELD support which is provided during an additional class period within the school day. Professional learning for ELD is provided for teachers TK-12th grade.

ESSA Provisions Addressed Within the LCAP

Within the LCAP an LEA is required to describe its goals and the specific actions to achieve those goals, for each of the LCFF state priorities. In an approvable LCAP, it will be apparent from the descriptions of the goals, actions, and services how an LEA is acting to address the following ESSA provisions through the aligned LCFF state priorities and/or the state accountability system.
